Issuance

Monthly plus two additional supplemental editions: The 2019 Compendium of Federal Medicine (May 2019) and the 2020 Directory of Federal Medical Treatment Facilities (November 2019).

Market Served and Editorial Content

U.S. Medicine serves the physicians, pharmacists, nurse practitioners, physician assistants and administrators working in Veterans Affairs, Military Health System and the U.S. Public Health Service. The federal market represents the largest integrated healthcare in the United States, providing healthcare to 18 million veterans, active duty and retired servicemembers and their dependents, plus those served by the U.S. Public Health Service. Each month, the staff of *U.S. Medicine* interviews experts and thought leaders on how best to manage diseases specific to the federal patient.

Special Focus: Two or three full-length original articles on a specific clinical topic.

Clinical Consults: Articles featuring results of recent clinical studies conducted by VA or DoD in a specialty area.

Pharmacy Update: In-depth information on use of therapeutic agents, new devices and innovative techniques at the VA, DoD and other federal healthcare agencies. Also includes briefs on newly approved drugs.
